WORKSHEET

Unit 5_Advanced reading 2

PREPARING YOUR CAR FOR A BLIZZARD

Good afternoon, everyone! Imagine that your family is in a car. Suddenly your dad drives into a terrible blizzard. The car goes off the road. It's dark, it's cold, and you are stuck. How can you prepare for this? Let me explain four easy steps that may save your life someday.

First, always travel with a full tank of gasoline. If you get stuck, stay inside the car. With enough gasoline, you can start your car often to keep you warm.

Next, keep food and water in your car. Chocolate, cookies, and nuts can give you energy. Keep a can and matches in your car, too, so you can melt snow for extra water.

Also, keep coats, boots, and sleeping bags in your car. They will help you stay warm. Pack a flashlight and extra batteries so you can see inside the car at night.

Finally, always bring a cell phone so you can call for help. On the phone, explain where you are. Road signs can give you important information.

These simple steps can save your life. Think about it.

I. Read. Answer the questions.

1. What do you need to start your car often in the blizzard?

.....

2. What should you do when you get stuck?

.....

3. Why should you keep matches in your car?

.....

4. What do you keep extra batteries for?

.....

5. What should you say on the phone when you call for help?

....

II. Read again. Choose supplies that you need to prepare for a blizzard.
