Sea levels are rising, and [1]_____ major cities – like New York and London – are in danger. There aren't [2]_____ easy answers to this problem, but scientists are looking at [3]_____ possibilities. For example, the strange things in the photo are called Lilypad Cities and they float on the surface of the ocean. They're a kind of eco-city. They only use clean energy, so they don't create [4]_____ pollution. And there aren't [5]_____ cars – in fact, there aren't [6]_____ roads. But there are [7]_____ footpaths. When the residents want [8]_____ exercise, they go for a walk in the artificial mountains. There are certainly [9]_____ big advantages to living in a Lilypad City. But sadly, there aren't [10]_____ plans to build one yet.
