

Past Simple versus Past Continuous

Past Simple označuje dejanja, ki so se zgodila v preteklosti, medtem ko **Past Continuous** označuje dlje časa trajajoče dogajanje v preteklosti. Tako je **Past Simple** dovršni čas in **Past Continuous** nedovršni čas.

Kaj se je dogajalo (Past Continuous)	Kaj se je zgodilo (Past Simple)
NEDOVRŠNO	DOVRŠNO
was/were writing	wrote
was/were running	ran
was/were eating	ate
was/were learning	learnt
je pisal, je tekal	je napisal, je stekel
je jedel, se je učil	je pojedel, se je naučil

Kombinacije:

1. Past Simple + Past Simple

I opened the window and looked outside. (Dva zaporedna dejanja.)

2. Past Continuous + Past Continuous

I was reading and my mum dad was repairing the car. (Dva vzporedna dogajanja.)

3. Past Simple + Past Continuous

While I was reading somebody switched off the lights.

(Dejanje prekine dogajanje.)

S kombinacijo obeh preteklikov (Past Simple in Past Continuous) sta povezana tudi veznika **WHEN** in **WHILE**.

WHEN + Past Simple

I was sleeping WHEN a noise woke me up.

WHILE + Past Continuous

My cat caught a mouse WHILE I was sleeping.
