Apply Concepts

2 Write a number below each picture to show the correct order of the ladybug life cycle.

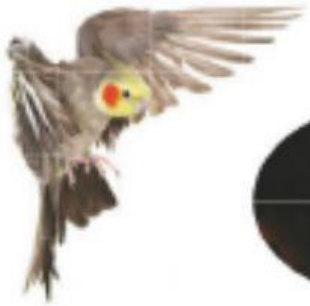

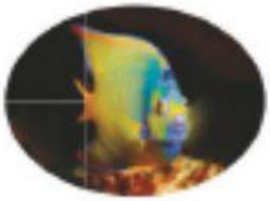

_____ _____ _____ _____

3 Draw circles around the vertebrates. Draw boxes around the invertebrates.

4 Draw lines to match each vertebrate to the characteristics that describe it.

Vertebrate	Description
amphibian	scaly skin
bird	lives part of life in water and part on land
fish	body covered with feathers
mammal	lives and takes in oxygen under water
reptile	young drinks milk from mother

Take It Home!

Get a deck of cards and pair up with a family member. Create a code to communicate to your partner—without speaking—which card is chosen. Test your code by choosing cards and communicating.
