READING

Passage 1:

In Vietnam, mango trees grow mainly in central and southern provinces. They are strong and tall with lots of branches. A mango tree grows up to 30 meters tall. The roots of a mango tree are strong and long so they can take food from the soil. Its leaves are long and narrow. The tree uses sunlight to make food for the plant. When the leaves are young, they have an orange and pink color. When they get older, they turn green and dark green. Mangoes usually have oval shape and can be red, yellow or orange. The fruit has one very large seed. Mango trees are common in warmer parts of Vietnam.

1. Mango trees mainly grow in hotter parts of Vietnam. .....
2. The height of tree can grow up 3000 centimeters. .....
3. The young leaves have green and dark green color. .....
