4. Lan is 14 years old . Mai is 15 years old.

→Mai is…….

IV. Read and choose T or F

Young people prefer the town to the country because they love the noisy and busy life there. They also think that it is easier to get money in the town than in the country. Therefore, more and more young people leave the country for the town every year. Different from young people, old people like living in the country because the country is not so noisy and busy as the town. The air in the country is much fresher than the air in the town, too. Therefore, after stopping working, many of old people move to their home villages.
