▶ Exercise 2. Classify those words

Guess Has Increase City Sure
Schools Spaces Shops Housing Difference

<u>/s/</u>	<u>/z/</u>	<u>//j/</u>

► **Exercise 3. Listen and practice speaking (Track 4)**

Describe a change in the past few years in your city.

You should say:

What the change was?

What caused the change?

Whether it was easy to change?

And explain what you think of the change.

I **guess** one of the biggest changes that **has** happened in the past few years in my hometown has been the **increase** of parks and trees around the city. Now there are many beautiful parks in every area of the **city**. There is a lot more grass, trees and flowers.

I'm not entirely **sure** what caused the change, but I believe it is partly because China is becoming more open to the rest of the world. More and more foreign companies, businesses, and **schools** are interested in starting up in China. The 2008 Olympic was held in Beijing. China has gained entry into WTO. So, I believe that the Chinese government has been trying to improve the environment of each major city, and making more green **spaces** has been one of the ways to do this.

IELTS Speaking Part 2

Describe your favorite book

My favourite book is called the Hunger Games. It was wrote by Suzanne Collins, I think and it is a really good book. The story is set in North America, but at a time when things are very bad. It's a story of a terrible society, which separated into districts. A boy and a girl from each district send to take part in the Hunger Games. These games are televised for everyone to see. The games are basically a fight to the death for the children taking part in. The story follows a girl called Katniss, who forced to take part in the games when she offers herself up instead of her sister. I like the story so much because it is very exciting. At first, I found it really horrifying, but the more I read it, the more I couldn't put the book down. I was recommend this book by some friends and it didn't disappoint me.
