Teen Island Challenge

What are you going to do this summer? Do you want to do something different?

If your answer is yes, then things are going to get exciting. Channel 9 is screening a new reality TV show this year called *Teen Island Challenge*.

We're looking for twenty teenagers aged between sixteen and eighteen to take part. We'll fly you to a Scottish island at the end of July and leave you there with a camera crew. You can take very little luggage – just a small bag.But don't worry, we'll come back and get you a month later.

So what happens? Well, very few people live on this island. It will be a tough challenge because there won't be any electricity or running water. You'll sleep in tents and you'll have a few camping lamps. We'll give you a little basic food for the first week, such as flour, sugar, oil, tinned meat and tinned vegetables. You'll have to find or catch all your fresh food. Your kitchen will consist of an open fire and a few saucepans.

We're holding auditions on 31st January in London. It's going to be a hit show. Book your audition now!
