

TOPIC 1.4: GRAPH AND TABLES

1. Rosli was infected with H1N1 virus and his body temperature rose up to 40°C in a few hours. Which of the following graphs represents this?
(SPE/2010/Q7)

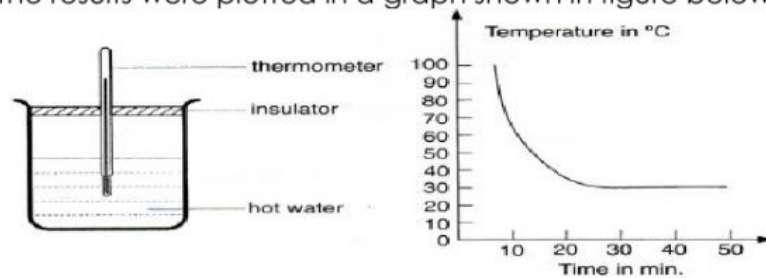

☐

2. Figure below shows graphically the extension of a spring when different loads were attached to it. What is the load if the length of the spring is 4 cm?
(SPE/2011/Q11)

- A. 20 N
B. 10 N
C. 5 N
D. 4 N

☐

3. Hot water was poured into the tin can and left to cool to room temperature as shown in figure below. The results were plotted in a graph shown in figure below.

From the graph, find the room temperature at which the experiment was carried out.
(SPE/2011/Q21)

- A. 100°C
B. 50°C
C. 30°C
D. 20°C

☐
