

Listen to the song and complete the lyrics with the words which describe the body parts.

Ed Sheeran, Thinking Out Loud

When your _____ don't work like they used to before
And I can't sweep you off of your _____
Will your _____ still remember the taste of my love?
Will your _____ still smile from your _____?

And, darling, I will be loving you 'til we're 70
And, baby, my _____ could still fall as hard at 23
And I'm thinking 'bout how people fall in love in mysterious ways
Maybe just the touch of a _____
Well, me—I fall in love with you every single day
And I just wanna tell you I am

So, honey, now
Take me into your loving _____
Kiss me under the light of a thousand stars
Place your _____ on my beating _____
I'm thinking out loud
Maybe we found love right where we are

When my _____'s all but gone and my memory fades
And the crowds don't remember my name
When my _____ don't play the strings the same way (mmm...)
I know you will still love me the same

'Cause, honey, your soul could never grow old, it's evergreen
And, baby, your smile's forever in my mind and memory
I'm thinking 'bout how people fall in love in mysterious ways
Maybe it's all part of a plan
Well, I'll just keep on making the same mistakes
Hoping that you'll understand

That, baby, now
Take me into your loving _____
Kiss me under the light of a thousand stars
Place your _____ on my beating _____
Thinking out loud
Maybe we found love right where we are (oh, oh)

La, la, la, la, la, la, la, la, lo-ud

So, baby, now
Take me into your loving _____
Kiss me under the light of a thousand stars
Oh, darling, place your _____ on my beating _____
I'm thinking out loud
But maybe we found love right where we are
Oh baby, we found love right where we are (maybe)
And we found love right where we are
