# Commas in a Series of Nouns

A **comma** tells a reader where to pause. A comma also helps to make the meaning of a sentence clear.

When you list three or more words together in a sentence, the list is called a **series.** Use commas to separate nouns in a series.

Ellie likes carrots, potatoes, and green beans.

Anne, Marie, and TJ do not like beets.

**Thinking Question**
*Are there three or more words listed together in the sentence?*

**Write each sentence. Put commas where they are needed.**
