

MULTIPLICACIÓN DE FRACCIONES

- Visualiza el vídeo para recordar cómo se multiplican fracciones:

- Realiza estas multiplicaciones de fracciones. Expresa el resultado simplificado.

1. $\frac{6}{3} \times \frac{4}{3} = \text{—}$

2. $\frac{1}{7} \times \frac{5}{5} = \text{—}$

3. $\frac{2}{3} \times \frac{9}{10} = \text{—}$

$$4. \frac{2}{2} \times \frac{4}{6} = \text{—}$$

$$5. \frac{10}{12} \times \frac{4}{8} = \text{—}$$

$$6. \frac{5}{21} \times \frac{7}{8} = \text{—}$$

$$7. \frac{6}{8} \times \frac{2}{3} = \text{—}$$

$$8. \frac{2}{2} \times \frac{1}{4} = \text{—}$$

$$9. \frac{8}{6} \times \frac{5}{4} = \text{—}$$

$$10. \frac{23}{10} \times \frac{14}{35} = \text{—}$$

$$11. \frac{3}{4} \times \frac{4}{10} = \text{—}$$

$$12. \frac{6}{12} \times \frac{1}{3} = \text{—}$$

$$13. \frac{16}{20} \times \frac{4}{7} = \text{—}$$
