

# Sequencing

Read the passage, and select the events in correct order

First, she planted seeds.

Next, the sun came out.

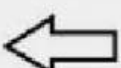

Then, a tiny plant popped up.

Finally, a flower bloomed.

|       |      |      |      |
|-------|------|------|------|
| First | Next | Then | Last |
|-------|------|------|------|

Look at the pattern in each row. Select the picture that continues the pattern.

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                |  |
