

Forms of energy:

1. _____ is the ability to do work.
2. _____ gives us energy.
3. All forms of energy can be grouped into _____.
4. They are _____ energy and _____ energy.
5. An object that is moving has _____ energy.
6. An object that is not moving has _____ energy.
7. The energy that we get from the sun is called _____ energy.
8. We get _____ and _____ from the sun.
9. Energy that we get from wind is called _____ energy.
10. Energy that we get from moving water is called _____ energy.
11. Energy that we get from nuclear reaction is called _____ energy.
12. Energy that we get from chemical reaction is called _____ energy.
13. Energy that we get from moving electrons is called _____.
14. Heat energy is called _____ energy.
