

### *Factors affect resistance activity*

**Describe** how resistance changes when each of the physical factors in the table increases. **Increase OR decrease**

|                      |  |
|----------------------|--|
| Length               |  |
| Cross-sectional area |  |
| Temperature          |  |
