

NATURAL SCIENCE LESSON

1. Drag and drop the parts in the female and male reproductive system.

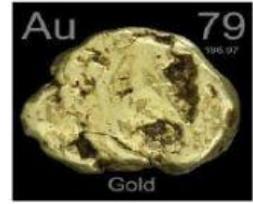

OVARY CERVIX UTERUS VAGINA
 FALLOPIAN TUBE/OVIDUCT

SCROTUM VASA DEFERENTIA TESTICLES
 PROSTATE URETHRA PENIS
 SEMINAL VESICLES BLADDER

2. Match the following things (matter) in each category.

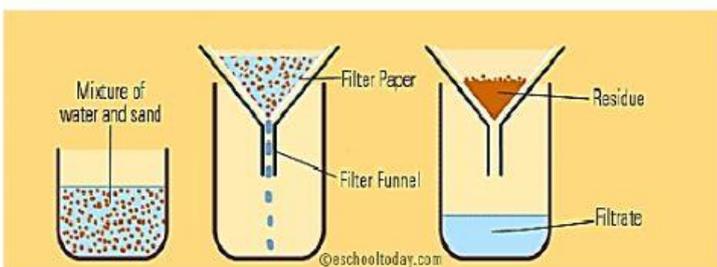

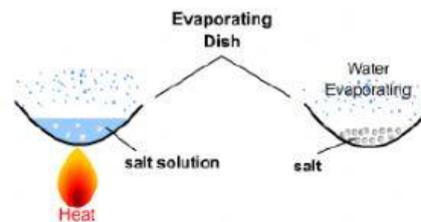

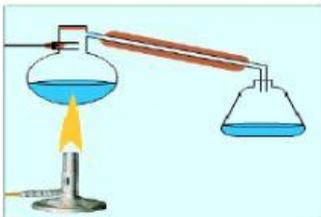

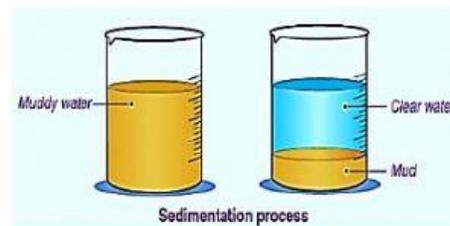

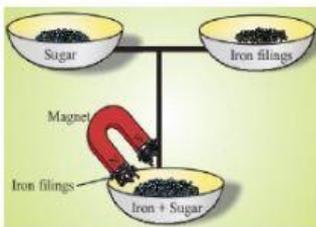

Element

Compound

Homogeneous mixture

Heterogeneous mixture

3. Look at the methods to separate mixtures and choose.

4. Look at the planets and write the correct number in each name.

Match the numbers with the names of the planets.

SUN

1 2 3 4 5 6 7 8

_MERCURY _MARS _SATURN

 _JUPITER _EARTH

_VENUS _URANUS _NEPTUNE

5. Look at the pictures. Then drag and drop the correct option.

LUNAR ECLIPSE

SOLAR ECLIPSE
