

MODE MEDIAN MEAN

A. Find the **Mode** in each set

Order the numbers and then write the Mode

The **Mode** is the most **Common** number

	Data	Ordered List	Mode
1.	3, 12, 7, 10, 7, 2, 3, 7		
2.	15, 6, 2, 13, 5, 5, 1, 7, 11		
3.	9, 9, 4, 7, 2, 5, 1		
4.	24, 22, 21, 22, 26, 24, 22		
5.	14, 18, 13, 12, 13, 15, 18, 18		

B. Find the **Median** in each set

Order the numbers then write the Middle

The **Median** is the **Middle** number

	Data	Ordered List	Median
1.	16, 24, 8, 12, 19		
2.	13, 5, 2, 10, 8		
3.	89, 38, 94		
4.	75, 29, 12, 17, 15		
5.	73, 91, 56, 24, 14, 17, 10		

C. Find the **Mean** in each set

Add the numbers then **Divide** by the number of numbers

	Data	Find the Sum	÷ No of Numbers
1.	10, 12, 8, 10		
2.	12, 10, 14, 13, 16		
3.	32, 24, 28		
4.	6, 8, 5, 4, 8, 5		
5.	30, 40, 20, 60, 50
