

Read the summary statements. Then draw a line to match each statement with the appropriate picture.

1 Renewable resources are resources that nature can replace after they are used.

2 Some renewable resources can be used to generate electrical energy.

3 Natural resources can be imported and exported throughout the world.

4 Pollution occurs when waste and chemicals harm land, air, and water.

Summarize

Fill in the Venn diagram by writing the correct number of each item in the appropriate category.

5. Natural resources

6. Air

7. Water

8. Soil

9. Fossil fuels

10. Minerals

11. Plants

Renewable Resources

Both

Nonrenewable Resources
