EVS –WORK SHEET

GRAD- 6

Q1. Find out whether these magnets will *attract* or *repel*

a  [Attract / Repel]

b  [Attract / Repel]

c  [Attract / Repel]

d  [Attract / Repel]

Q2. A compass uses magnetism. Which way does a compass always point?

East

West

North

South

Q3. Tick [✓] the metals that magnets can pick up:

Gold

Cobalt

Iron

Copper

Aluminium

Silver

Steel

Nickel

Q4. Complete the sentences using the word bank below.

repel north attract south pull push poles

Magnets have two . One is called the pole and the other is the pole. When opposite poles are near one another, they together. This means the two poles . When two of the same poles are near one another, they away from one another. This means the two poles each other.
