Question 22:

While these findings are striking, there is no perfect benchmark or “true ratio” for how often men and women should be portrayed in news images on social media. Yes, the U.S. population is divided nearly in half, male versus female. But, for example, all the representational coverage of professional football teams would return results overwhelmingly dominated by male faces. Coverage of the U.S. Senate – currently 25% female – might do the same. In addition, the analysis did not address whether the content of the news stories that accompanied the images was more focused on men or women.

The word “that” in paragraph 4 refers to _____.

- A. the analysis B. the content C. the images D. the news stories

Mark the letter A, B, C, or D on your answer sheet to indicate the underlined part that needs correction in each of the following questions.
