

Ring game

History

Ring game is also known as ring tennis which is played on a tennis or badminton-style court with a circular rubber ring. There is no evidence indicating the origin of ring game, but it is believed that Germany invented this game. Nowadays, the ring game has achieved popularity in many countries.

Goal of the game

To score, a player throws the rubber ring over a net to the opponent's side and the ring hits the ground within the target area or the opponent cannot catch the ring.

Other player drops the ring

made of rubber
