true

false

III.- **Read the story about Amazing Animals and answer the questions.**

Animals get a lot of help as they grow up.  
Let's find out about eight amazing animals.

### **Polar Bear**

A polar bear has thick fur.  
Each hair is like a tube.  
The hair has no color, like glass.  
The sun makes it look white.

Thick fur helps polar bears stay warm.  
The color of their fur looks the same as snow.  
This helps them hide.

### **Elephant**

An elephant has a long nose.  
The nose is called a trunk.  
These teeth are called tusks.

## Camel

Some camels have one hump.

Some have two. All camels have two rows of eyelashes.

A camel's hump has fat inside.

On long trips, a camel's body uses the fat for food.

A camel's eyelashes keep out the desert sand.

16.- **What animals are mentioned in this story?**
