

A new house

RC4

1 Read the letter.

Hi Mary,

Guess what! We moved to a new house last month. It's great! It has three floors. On the ground floor there's a large living room with a fireplace. Next to the living room we have a big kitchen. My dad likes spending his time there, because he loves cooking. We have a bathroom on each floor. I'm very happy because I have my own room. It's on the first floor, next to my sister's bedroom. And my parents' bedroom is on the second floor.

We have two gardens. My mum's garden is in front of the house. There aren't any trees or bushes in it because my mum loves roses. That's why this garden is full of roses! We also have a small garden behind the house. It's a place where I spend my free time and play with my friends. But I can't play with my dog or ride a bike there.

Bye,
Eve
