

Unit 5

Earth's Materials

**What is Earth
made of?**

I will learn

- about land and water and Earth.

2 Read, look, and mark (✓) the things we can do to help the environment.

3 Read and match the sentence halves.

Reduce and Reuse

All of the things people use come from Earth. The metal in a paper clip comes from rocks. Paper comes from trees.

People can protect Earth by reducing the number of things they use. **Reduce** means to use less. How can you reduce the amount of water you use? You can turn off the water while brushing your teeth.

People can reuse things, too. **Reuse** means to use again. You can reuse paper by writing on both sides.

1. Everything we use...

using things again.

2. We reuse things by...

using less of
everything on Earth.

3. We can protect
Earth by...

comes from Earth.

5 Read, look, and match each item to its recycling bin.

Recycle

People can recycle. **Recycle** means to change something so it can be used again. Paper, plastic, metal, and glass can be recycled.
