

Lesson 2: Changes Affect Organisms

Choose words from the box to complete the sentences.

pollution invasive
species floods trees
drought fires

A new type of organism arrives in an ecosystem.
There are no predators that eat this organism, so it
increases quickly and takes over the habitat of other
organisms.

No rain or water for a long time.

Human activity

crow

Aiton

Too much rain can
cause

 destroy many
plants and animal
habitats

 are cut
down to build
towns and roads.

Gases cause air
