Part III Reading

Read the article. Then choose the correct answers. Write A, B, or C in the spaces.

Doctors say that exercise is good for you, but it shouldn't hurt. You don't want to have an accident or injury when you exercise. Here are some tips:

- Wear the right shoes. Your feet support your whole body.
- Drink a lot of water when you exercise. But don't eat for an hour before you exercise. Food and exercise don't go together.
- Slow down or stop if you feel bad. You should be able to talk and have a conversation when you exercise.
- Look where you are walking or running. You don't want to fall.
- Exercise with a friend. If you have a problem, your friend can help.

1. Exercise is NOT good for you when it _____.
 - A. hurts you.
 - B. makes you tired.
 - C. makes you thirsty.
2. What supports your whole body? _____

- A. your legs
- B. your shoes
- C. your feet

3. What should you be able to do while you exercise? _____

- A. be with a friend
- B. talk to a friend
- C. breathe hard

4. If you don't look where you're running, you might _____

- A. hurt yourself.
- B. get lost.
- C. breathe too hard.

Part IV Writing

Answer the questions below.

A friend of yours doesn't feel well. Describe what is wrong with him or her in 4 sentences. And write 2 sentences of what he or she should do.
