

3 (a) Compare the lengths of the objects.

$$3 - 10 =$$

The sharpener is cm
shorter than the pencil.

$$3 - 14 =$$

The sharpener is cm
shorter than the pen.

$$14 - 10 =$$

The sharpener is the
The pen is cm longer than
the pencil.
The pen is the

(b) Arrange the objects in order of their lengths.
Begin with the shortest object.

shortest

Can you arrange the
objects from the longest
to the shortest?
