

TEST

ERROR CORRECTION

TASK 1: Nouns and articles.

Read the text and find-correct the **15 errors**. Write the correction below.

Jamaica is one of the most beautiful islandes in the world, attracting thousands of visitors throughout a year. A island stretches one hundred and forty six miles from east to west. Its name comes from the Aarawak word, "Xaymaca", meaning "land of wood and water". With its riveres and streams flowing from the forests down mountains to the fertile plains, the Jamaica has one of the richest and most varied landscapes in the Caribbean.

The island's stunning coastline offers a feast of delights. The north coast, with its popular resorts of montego Bay, runaway Bay and Port antonio, has fine coral beaches and rich farmland where sugar cane, coconuts and citrus fruits are grown. Touristes who like to explore will be fascinated and amazed when they arrive. A centre of the island is mostly mountainous and wooded, with small minning towns and villageses dotted here and there. A famous Cockpit Country in the northwest is a unusual place with scattered hills. The people love this island. Come and visit!

ERROR CORRECTION**TASK 2: Adjectives.**

Read the text and find-correct the **12 errors**. Write the correction below.

I think that Paris is the most wonderfulest city in the world. It is certainly the more romantic. It has some of the most good art museums in the world. It also has some of the interestingets architecture, such as the Eiffel Tower. The Eiffel Tower is the more famous building in Paris. The view is really amazed. Then there is French food. I've been to many cities, and Paris has the better restaurants. French people really know how to cook good. Of course, Paris is not the most cheap place to visit. It is expensiver than Toronto, especially for hotels. However, there are still a few cheap hotels where you can get relaxing and have a great time too. I am planning to go to Paris next summer, I'm very exciting. In my opinion, it is the more beautiful and amused city in the world.

TASK 3: Numbers.

Write the price in letters for the products in the images.

1.

\$959.000

2.

\$376.249

3.

\$19.470.990

4.

\$33.800

5.

UF \$3.572

6.

\$990

7.

\$19.013

TASK 4: Dates.

What's the date? Choose the right date and write it in letters.

7/20/1969 10/12/1492 9/18/1810

1. Christopher Columbus arrived America.

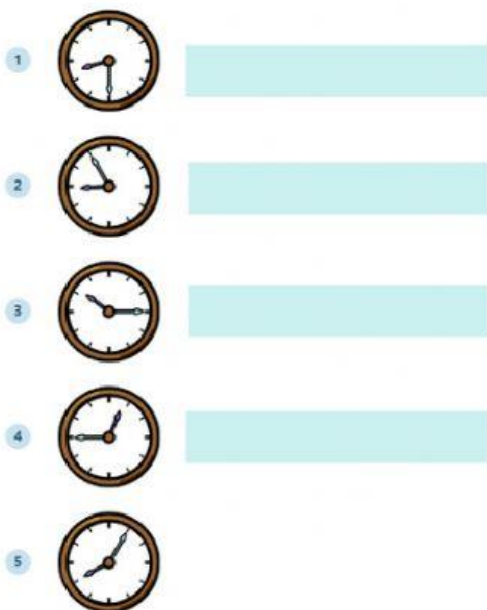

2. Neil Armstrong stepped on the moon.

3. Chilean Independence.

4. Today.

TASK 5: Time.

What's the time? Write the hours of each clock.

**TASK 6: Phonetics.**

Read the text aloud and then you can check your pronunciation.
