

Wash Your Hands

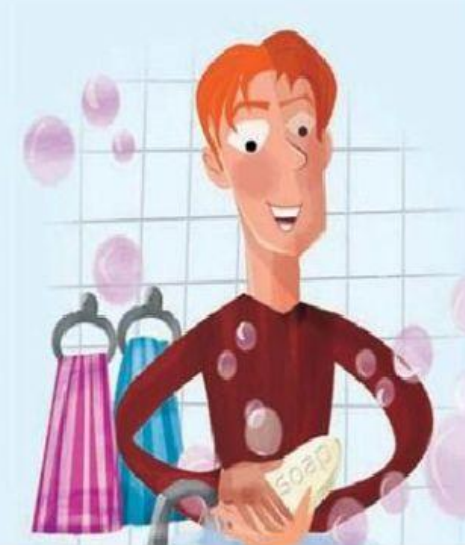

Wash your hands after you go to the bathroom
Wash your hands before you eat
Wash your hands whenever they are dirty
Wash your hands before you go to sleep

by Mike Soloway

Chorus

With good ol' soap and water,
Soapy soap and water
Those squirmy, wormy germies
They won't be stickin' 'round
With good ol' soap and water
Soapy soap and water
Those squirmy, wormy germies
Will be nowhere to be found

Oh those germs are hangin' on to your fingers
Oh those germs are hangin' on to your skin
They want to be part of your family

They want to be one of your kin

Chorus ...

Oh those germs can make you have a fever
Oh those germs can make you have a cold
So wash your hands when they are dirty
So wash your hands like you've been told

Chorus ...

QUESTIONS

1. When should you wash your hands?
2. What can happen if you don't wash your hands?
