

LEE ANTES DE HACER LA FICHA

Perímetro

$$P = l + l + l$$

$$P = 10 + 43.17 + 43.17$$

$$P = 96.34 \text{ cm}$$

Área

$$A = \frac{b \times h}{2}$$

$$A = \frac{10 \times 42}{2}$$

$$A = 210 \text{ cm}^2$$

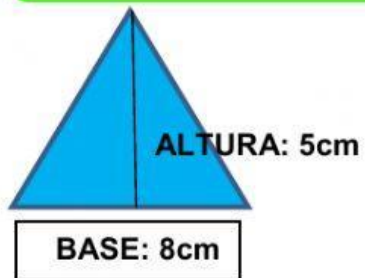

PASOS PARA COMPLETAR LA FICHA:

SIN ESPACIOS

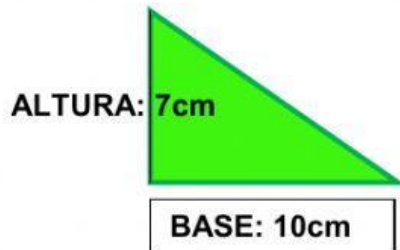

Ejemplo de área: 50cm²

Ejemplo de perímetro: 6cm

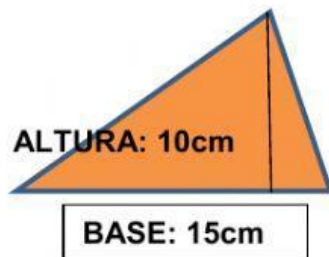

Calcula el área de estos triángulos
