1. Read the text about the Golden Trio and say what the true meaning of friendship is. (5 p.)

I'd like to talk about the Golden Trio from J. K. Rowling's Harry Potter, a series of seven fantasy novels. I think Harry Potter is about friendship. Three best friends manage to overcome so many difficulties because they always stick together and support one another. There are two things that impress me most. First, they are only 12 years old when they meet, but they still understand what true friendship means. Second, they make such a great team despite their differences. It is true they have very different characters. But they know that they can trust one another. They share all their secrets and they always help one another. I think that their friendship shows the true meaning of the proverb *A friend in need is a friend indeed*. I cannot say who my favourite character is. I don't have one. I love them all. I like Harry for his determination, Hermione for her intelligence, and Ron for his sense of humour. They never get bored together. I think they are inspiring. They show us how to be a good friend. We can also learn from them that when we work together we can realize all our goals.
