

MY TIME CAPSULE

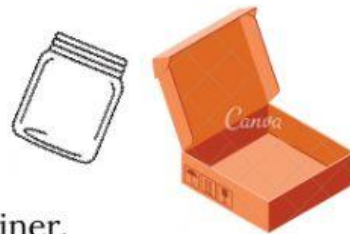

My 2020 Quarantine capsule

A **time capsule** is like a frozen piece of time. You are going to **open** this capsule of time in **September**, when the school starts. We all are going to open our time capsules **together** and talk about **what things** we put inside and **why**.

We are living an **especial period of time**, a very unique time in history!! Imagine how interesting is to remember in the future **all the things you did** during this quarantine.

You can create one **with your family**, where all of you put things inside or you can create **one just for you!** :)

INSTRUCTIONS

1-**Find** a jar, an empty shoe box or other empty container.

2-**Cut** the title from the first page (My time capsule) or from this page ("My 2020 Quarantine..."). **Decorate** your capsule as you like.

3- **Write** in your **list** (next page) which things you want to put inside the time capsule. You have some **ideas** below.

4-When you finish to put every thing you want inside: **CLOSE THE TIME CAPSULE, seal it** (sállala).

5- In **SEPTEMBER**: Open and show your time capsule!! (not before!)

SOME IDEAS

Photos from this time

Newspaper cutouts

Artwork

Things you pick during a walk

A letter for your future "you"

Difficult things for you this time

Family handprints.

In my 2020 Quarantine capsule...

I put...
