

Comparing fractions worksheets - 4

Comparing fractions with same numerators practice

Write "<", ">" or "=" signs in the circles by [comparing the given fractions](#).

Hint: All the fractions have the same numerators, so you just need to see at the denominators to decide which fraction is least and which is greatest.

$1) \frac{1}{2} \bigcirc \frac{1}{3}$

$2) \frac{5}{9} \bigcirc \frac{5}{6}$

$3) \frac{7}{9} \bigcirc \frac{7}{2}$

$4) \frac{4}{5} \bigcirc \frac{4}{5}$

$5) \frac{2}{3} \bigcirc \frac{2}{8}$

$6) \frac{6}{8} \bigcirc \frac{6}{9}$

$7) \frac{9}{10} \bigcirc \frac{9}{10}$

$8) \frac{1}{9} \bigcirc \frac{1}{2}$

$9) \frac{4}{5} \bigcirc \frac{4}{7}$

$10) \frac{1}{7} \bigcirc \frac{1}{10}$
