WAYS TO SAVE!

1 Three teenagers tell us the new ways they have to save money

2 I enjoy reading and because I wanted to save some money, I decided to start selling my old books on a buy-and-sell
3 site I found online. It works perfectly for me because I can easily sell my old books and then I buy other peoples'
4 books. People sell their used books cheaply, so I don't spend a lot. I also earn discounts when I sell more than five
5 books, so then the prices are much cheaper. It's the best! - **Melissa**

6 Last year, I discovered a website where you can swap video games. The idea is you exchange your old games with
7 other people. So, you choose the game you've finished and agree to swap with the other person. The only cost is the
8 delivery and the games are sent really quickly. The system is as fast as buying new games online but it's at least
9 60% cheaper so I can save more of my pocket money! - **Tony**

10 My bedroom is full of things so one day I decided to give away things I don't use now, like my old skateboard. There
11 are groups online for this - you put up a picture of your object and usually after one day someone collects it. It
12 couldn't be easier! I don't earn cash from this, but I'm slowly getting more space in my bedroom. These days, I don't
13 waste money. I think more carefully about what I need, and I ask friends if I can borrow things. I feel better now I
14 don't have all the extra things I had before! - **Chris**
