

Name: _____

Directions: Simplify by combining like terms.

$$3x + 4x = \underline{\hspace{2cm}}$$

$$3x + 3 + 2x = \underline{\hspace{2cm}}$$

$$9y + 9 + 2y = \underline{\hspace{2cm}}$$

$$5y + 2y + x + 3 = \underline{\hspace{2cm}}$$

$$5x + 5x + 2 = \underline{\hspace{2cm}}$$

Circle your level of understanding:

1 (I don't understand this yet.)

2 (I need some more practice.)

3 (I am ready for more challenges.)
