

Activity 4.3 – Comparing the life cycles of the butterfly and cockroach

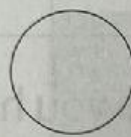

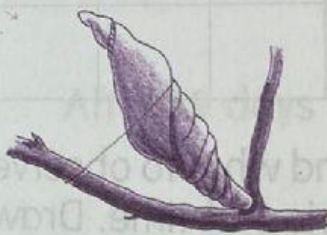

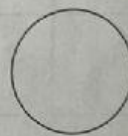

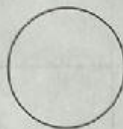

Aim:

To compare the life cycles of the butterfly and cockroach

Process skills:

Observing, Communicating, Comparing

1. The photographs below show the different stages in the life cycles of the butterfly and cockroach.

2. The photographs are not in the correct order. List the photographs in the correct order by writing in the circles:
- the numbers 1 – 4 to show the life cycle of a butterfly, and
 - the letters A – C to show the life cycle of a cockroach.
