

Practice 2 Ways to Add: Adding by Counting on

1. Count on.

Fill in the blanks.

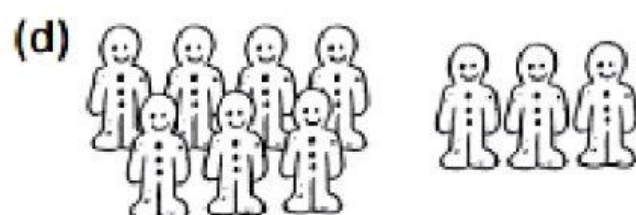

$$4 + \square = \square$$

$$2 + \square = \square$$

$$5 + \square = \square$$

$$7 + \square = \square$$

$$8 + \square = \square$$

2. Add by counting on from the greater number.

Example

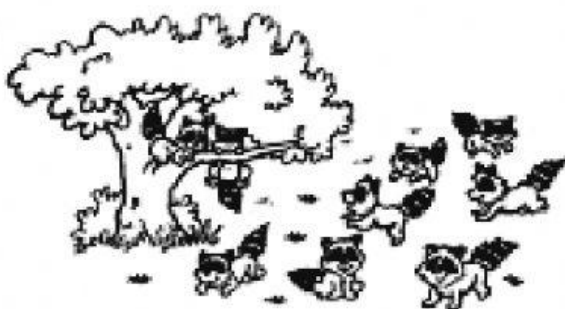

$$1 + 3 = 4$$

(a)

$$\square + \square = \square$$

(b)

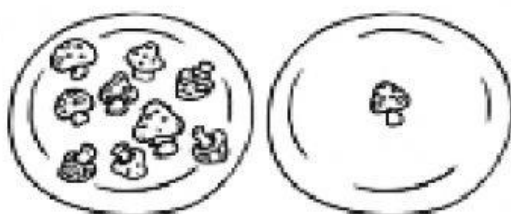

$$\square + \square = \square$$

(c)

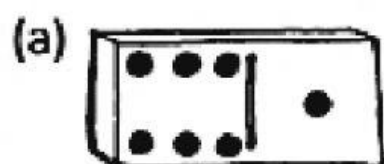

$$\square + \square = \square$$

(d)

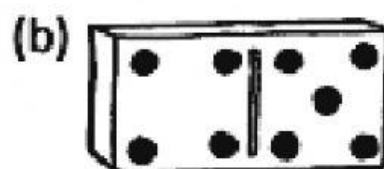

$$\square + \square = \square$$

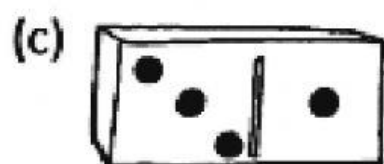

3. Look at the pictures and fill in the blanks.
Count on to get the answers.

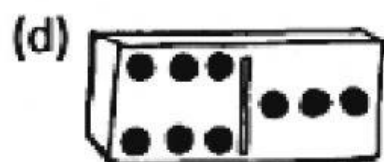

$$\underline{6} + \boxed{} = \boxed{}$$

$$\boxed{} + \boxed{} = \boxed{}$$

$$\boxed{} + \boxed{} = \boxed{}$$

$$\boxed{} + \boxed{} = \boxed{}$$

4. Add by counting on from the greater number.

(a) $4 + 1 = \underline{\hspace{2cm}}$

(b) $6 + 2 = \boxed{}$

(c) $9 + 1 = \underline{\hspace{2cm}}$

(d) $3 + 4 = \boxed{}$

(e) $2 + 0 = \underline{\hspace{2cm}}$

(f) $5 + 5 = \boxed{}$
