

COLD COLD COLD – CAGE THE ELEPHANT

breathing	cold as ice
change my mind	nurse
chest	
feel right	

Doctor, look into my eyes
 I've been _____ air, but there's no sign
 of life
 Doctor, the problem's in my _____
 My heart feels _____, but it's
 anybody's guess

[Pre-Chorus]

Doctor, can you help me? 'Cause I don't

 Better make it fast before I change my
 mind
 Doctor, can you help me? 'Cause I don't

 Better make it fast before I

[Chorus]

Well, it's cold, cold, cold, cold inside
 Darker in the day than the dead of night
 Cold, cold, cold, cold inside
 Doctor, can you help me? 'Cause
 something don't feel right
 Something don't feel right

[Verse 2]

Sweet _____, don't look at me that way
 I've seen those eyes before, I can tell you
 want to play
 Counselor, give me some advice
 Tell me, how hard will I fall if I live a
 double life?

[Pre-Chorus]

Doctor, can you help me? 'Cause I don't

 Better make it fast before I change my
 mind
 Doctor, can you help me? 'Cause I don't

Better make it fast, because there ain't
 much time

[Chorus]

Well, it's cold, cold, cold, cold inside
 Darker in the day than the dead of night
 Cold, cold, cold, cold inside
 Doctor, can you help me? 'Cause
 something don't feel right
 Something don't feel right
 Something just ain't right
