

2. Follow the steps to subtract.
Then, fill in the blanks.

Step 1:

$$\begin{array}{r} 4 \quad 3 \quad \overset{4}{5} \quad \overset{17}{7} \\ - 1 \quad 7 \quad 8 \quad 9 \\ \hline \end{array}$$

First, subtract the ones.

We cannot take away 9 ones from 7 ones.
So, we regroup the tens and ones in 4357.

5 tens 7 ones = _____ tens _____ ones

Step 2:

$$\begin{array}{r} 4 \quad \overset{2}{3} \quad \overset{14}{5} \quad \overset{17}{7} \\ - 1 \quad 7 \quad 8 \quad 9 \\ \hline \end{array}$$

Then, subtract the tens.

We cannot take away 8 tens from 4 tens.
So, we regroup the hundreds and tens in 4357.

3 hundreds 4 tens = _____ hundreds
_____ tens

Step 3 :

$$\begin{array}{r} \overset{3}{4} \quad \overset{12}{3} \quad \overset{14}{5} \quad \overset{17}{7} \\ - 1 \quad 7 \quad 8 \quad 9 \\ \hline \end{array}$$

Next, subtract the hundreds.

We cannot take away 7 hundreds from 2 hundreds.
So, we regroup the thousands and hundreds in 4357.

4 thousands 2 hundreds = _____ thousands
_____ hundreds

Step 4:

$$\begin{array}{r} \overset{3}{4} \quad \overset{12}{3} \quad \overset{14}{5} \quad \overset{17}{7} \\ - 1 \quad 7 \quad 8 \quad 9 \\ \hline \end{array}$$

Lastly, subtract the thousands.
