

Refaah school–Cycle 1-1389-Grade 2-Math-Unit 8 Money

Lesson 8.3 Solve money problems involving dirham notes and coins.

Learn: Ava has 41 AED in her bank. She adds 29 AED. What are some ways to show the amount of money Ava has?

There are different AED notes.

$$41 \text{ AED} + 29 \text{ AED} =$$

41 AED	29 AED
	
	

$$60 \text{ AED} + 5 \text{ AED} + 5 \text{ AED} = \underline{\hspace{2cm}} \text{ AED}$$

What is the value of the group of coins or dirham notes?

	_____ AED
	_____ AED
	_____ AED

Pam has 160 AED in dirham notes. What dirham notes could she have?
