

# Division

## How to divide

Find the number of objects in each group.

(a) Divide 10 snails equally into 2 groups.

$$10 \div \underline{\quad} = \underline{\quad}$$

There are        snails in each group.

Arrange 15 books equally into 3 stacks.

$$15 \div \underline{\quad} = \underline{\quad}$$

There are        books in each stack.

Divide 15 by 5.

$$15 \div \underline{\quad} = \underline{\quad}$$

There are        eggs in each nest.

# Division

## How to divide

Find the number of groups.

(a) Divide 12 beads into groups of 4.

$12 \div \underline{\quad} = \underline{\quad}$

There are        groups of 4 beads.

(b) Divide 14 ice cream cones into groups of 7.

$14 \div \underline{\quad} = \underline{\quad}$

There are        groups of 7 ice cream cones.

(c) Divide 20 by 5.

$20 \div \underline{\quad} = \underline{\quad}$

There are        groups of 5 oranges.
