

Can you solve problems involving
Squares, **Square root**,
Cubes and **Cube roots** ?

Easy question	<input checked="" type="checkbox"/>	Medium question	Challenging question
---------------	-------------------------------------	-----------------	----------------------

1) Calculate the value of :

$$8^2 + 10^2 = ?$$

Easy question	<input checked="" type="checkbox"/>	Medium question	Challenging question
---------------	-------------------------------------	-----------------	----------------------

2) Find the value of :

$$5^2 - \sqrt{169} = ?$$

Easy question

Medium question

Challenging question

3) Find the value of :

$$\sqrt[3]{125} + 4^3 = ?$$

$$\text{[Pink Box]} + \text{[Blue Box]} = \text{[Yellow Box]}$$

Easy question

Medium question

Challenging question

4) Find the value of :

$$(4 + 2)^2 - \sqrt{36} = ?$$

$$\text{[Pink Box]} - \text{[Blue Box]} = \text{[Yellow Box]}$$

Easy question

Medium question

Challenging question

5) Find the value of :

$$(4 + 6)^2 \times \sqrt[3]{729} = ?$$

$$\text{[Pink Box]} \times \text{[Blue Box]} = \text{[Yellow Box]}$$

The End

Good Luck
