

Calculate and give your answers in whole numbers:

1	$2 \frac{3}{5}$ million + 0.8 million =	2	1.08 million – 345 000 =
3	$\underline{\hspace{2cm}} \times 100 = 3 \frac{7}{10}$ million	4	$4\ 500\ 000 \div \underline{\hspace{2cm}} = 0.045$ million
