Watch the video explanation:

Example 25
Write one of these symbols in each gap to make a true statement

Drag and drop the correct answer to the correct box

<	>	=

$\dfrac{1}{4}$		0.15
$5.5 \, km$		$7500 \, m$
$\dfrac{40 \times 0.4}{0.4}$		40

REMEMBER Please copy the step-by-step workings and answers into your notes.

Example 26
Put these numbers in order of size starting with the smallest

Drag and drop the correct answer to the correct box

| −7 | | $\dfrac{1}{8}$ | | 0.55 | | 0.078 |

Answer = _____ , _____, _____, _____

Example 27
Label these integers on the number line: − 6, 8, -9, 0, 2, -2

Drag and drop the correct answer to the correct box

| − 6 | 8 | − 9 | 0 | 2 | − 2 |

-10 ←———————————————————————→ 10

Example 28
The bill for a pizza was \$14.50. Charles paid for $\dfrac{3}{5}$ of the bill.
How much did he pay?

Solution:

He paid = $\dfrac{}{}$ of a number

He paid = $\dfrac{}{}$ × 14.50

Answer = _____ **\$ 8.70**
