

Last week, I visited a fortune teller, she is an old woman from my hometown. I didn't go alone, I went together with three friends. We were really excited about this; we didn't know what to expect. All I can say is that it was fun and surprising.

This is what she told us...

"Tania, you will be a very good doctor; I know you're going to study at university but you don't know what course is the best for you... I think you will be an excellent doctor; so, take into account..."

I was shocked! I considered medicine but I wasn't really sure about that... Then the fortune teller continued...

"Gina and Vivian, you will travel around the world... I can see you visiting lots of different places all over the world. Gina you will have a daughter, and Vivian you will have a boy... I'm not sure when..."

My friends were happy to hear that because travelling around the world was their dream... They were surprised about the children the fortune teller mentioned.

Finally, the fortune teller looked at us and said:

"Girls... You will have exciting experiences next year... I can see you accomplishing your goals. But be careful! Don't waste your time and study hard every time you have the chance; otherwise your dreams could fade away..."

We were so thrilled about the news she gave us. We thanked her and went out to have dinner. It was an amazing day.

Answer about the text
