

ASKING FOR AND PROVIDING INFORMATION

CAUSE AND EFFECT

Ms. Vitha Class

LIVEWORKSHEETS

DIALOGUE

Tya: Covid-19 has affected all aspects of our lives, including health, education, economic, and social fields.

Yudi: That's true. Many people are infected by the virus. The medics have to spend most of their time at the hospital to treat patients

Tya: Right That condition also leads to economic problems. Companies face an existential threat, and workers are at risk of losing their livelihoods. Besides, non-formal workers also get difficulties running their businesses. Moreover, social activities are restricted which cause the economy to get

Yudi: You're right. Anyway, why is it difficult to stop?

Tya: A number of people do not apply health protocols strictly. Consequently, the virus spreads easily and rapidly.

Yudi : Then, in your opinion, why do they ignore the protocols?

LIVEWORKSHEETS

DIALOGUE

Tya : Well, I think they have poor awareness of how dangerous the virus is. Because of it, they are susceptible to infection and to infect other people.

Yudi: Now, we have to adapt to a new normal, so we can live like we used to before. We have been experiencing negative effects due to the pandemic. We have been attending online classes for years. Consequently, we don't know our friends well and often meet difficulties in our studies.

Tya : You're right. We have to hand in hand to overcome the problem and keep applying the health protocols wherever and whenever we are.
Yudi : I agree with you.
