Find the volume of cubes and cuboids:

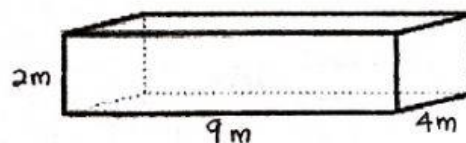

$$V = \underline{\quad} \times \underline{\quad} \times \underline{\quad}$$
$$= \underline{\quad} \text{ m}^3$$

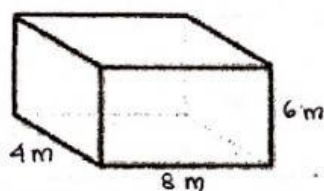

$$V = \underline{\quad} \times \underline{\quad} \times \underline{\quad}$$
$$= \underline{\quad} \text{ m}^3$$

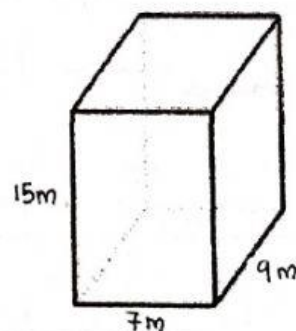

$$V = \underline{\quad} \times \underline{\quad} \times \underline{\quad}$$
$$= \underline{\quad} \text{ m}^3$$

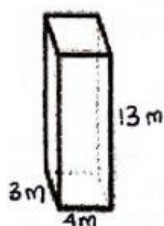

$$V = \underline{\quad} \times \underline{\quad} \times \underline{\quad}$$
$$= \underline{\quad} \text{ m}^3$$

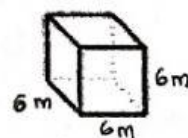

$$V = \underline{\quad} \times \underline{\quad} \times \underline{\quad}$$
$$= \underline{\quad} \text{ m}^3$$

$$V = \underline{\quad} \times \underline{\quad} \times \underline{\quad}$$
$$= \underline{\quad} \text{ m}^3$$

$$V = \underline{\quad} \times \underline{\quad} \times \underline{\quad}$$
$$= \underline{\quad} \text{ m}^3$$

$$V = \underline{\quad} \times \underline{\quad} \times \underline{\quad}$$
$$= \underline{\quad} \text{ m}^3$$
