

1. Read the text and decide whether each statement below is true (T) or false (F). Circle T or F.

### CHILDREN AND WATCHING TELEVISION

Watching television is a major activity of entertainment for children. Children in the United States watch an average of three to four hours of television a day. They spend more time watching television than they have in the classroom. Children learn information from TV and also relax by watching TV. So it is not difficult for us to see why there is a TV set in most houses now.
