

CONNECTION BETWEEN CAPACITY (L) AND VOLUME (m³) - I

=

$$1 \text{ dm}^3 = 1 \text{ litre}$$

1.- Convert to cubic meters (m³):

- | | | | |
|---------------|-------------------|-------------------|----------------|
| a) 2381 L = | dm ³ = | m ³ | |
| b) 31 daL = | L = | dm ³ = | m ³ |
| c) 12 hL = | L = | dm ³ = | m ³ |
| d) 2.1 kL = | L = | dm ³ = | m ³ |
| e) 987 dL = | L = | dm ³ = | m ³ |
| f) 1280 cL = | L = | dm ³ = | m ³ |
| g) 70000 mL = | L = | dm ³ = | m ³ |

2.- Drag the correct result:

- | | | | |
|---------------|-----------------|--------------|-----------------|
| a) 65 L = | dm ³ | d) 870 daL = | m ³ |
| b) 870 dL = | dm ³ | f) 0.65 L = | m ³ |
| c) 90000 mL = | cm ³ | g) 9 L = | mm ³ |
