

Function Notation Quiz

Identify the input or output as asked in the following functions.
The functions are defined above in different ways.

$f(-1) = \underline{\hspace{2cm}}$	$g(1) = \underline{\hspace{2cm}}$
$k(-3) = \underline{\hspace{2cm}}$	$h(0) = \underline{\hspace{2cm}}$
x when $k(x) = 0$ $\underline{\hspace{2cm}}$ $\underline{\hspace{2cm}}$	x when $h(x) = 6$ $\underline{\hspace{2cm}}$
$g(f(-1)) = \underline{\hspace{2cm}}$	$f(-1) - 2h(1)$ $= \underline{\hspace{2cm}} - \underline{\hspace{2cm}}$ $= \underline{\hspace{2cm}}$
